

Programme of the International Workshop

“New Approaches to Sustainable Synthetic Chemistry of Carbohydrates and Derivatives”

September 24-26, 2024,

Budapest, Hungary

24th September

Tuesday

09.00-9.15	Welcome
09.15-12.30	Plenary session 1
12.30-13.30	Lunch
13.30-18.00	Plenary session 2

25th September

Wednesday

9.00-12.15	Plenary session 3
12.15-13.30	Lunch
13.30-14.30	Plenary session 4
14.30-17.15	Hands-on session 1

26th September

Thursday

9.00-11.00	Plenary session 5
11.00-13.00	Hands-on session 2

Programme of the International Workshop

“New Approaches to Sustainable Synthetic Chemistry of Carbohydrates and Derivatives”

24th September – Tuesday

	Title of the seminar	Speaker
9.00-9.15	Welcome by the Bicyclos Coordinator	I. Manet CNR, Bologna, Italy
9.15-10.15	Unraveling Regioselectivity, the Challenge of Cyclodextrin Chemistry	M. Sollogoub Sorbonne Université, Paris, France
10.15-11.15	Tailored Molecules, Targeted Solutions: Precision Cyclodextrin Chemistry in Biomedical Applications	J. M. Garcia Fernandez CSIC-IIQ, Sevilla, Spain
11.15-11.30	Coffee break in Room 333	
11.30-12.30	The Two Faces of Cyclodextrin Polymers: Exploring Soluble and Insoluble Worlds through Synthesis, Characterization and Applications	F. Trotta Università di Torino, Torino, Italy
12.30-13.30	Lunch	
13.30-14.30	Lighting the Path: Exploring Porphyrin/Chlorin-Cyclodextrin Conjugates for Photo-Controlled Drug Delivery	K. Yannakopoulou Demokritos, Athens, Greece
14.30-15.30	Simplifying for Sustainability: Advancing Cyclodextrin Derivatives Manufacturing to Meet Tomorrow's Needs	M. Malanga CarboHyde, Budapest, Hungary
15.30-16.00	Coffee break in Room 333	
16.00-17.00	Launching into Pharma workshop: Strategies for Aspiring Entrepreneurs	G. Toth CarboHyde, Budapest, Hungary
17.00-18.00	From Non-Profit Beginnings to Biotech Breakthroughs: The Journey from Bench to Bedside	M. O'Connor Cyclarity Therapeutics, San Francisco, USA

Programme of the International Workshop

“New Approaches to Sustainable Synthetic Chemistry of Carbohydrates and Derivatives”

25th September – Wednesday

	Title of the seminar	Speaker
9.00-10.00	Exploring Cyclodextrin Host-Guest Interactions through Electronic Spectroscopy	I. Manet CNR, Bologna, Italy
10.00-11.00	Elucidating Cyclodextrin Derivatives and Complexes: A Multi-Technique Approach with NMR and Capillary Electrophoresis	S. Beni ELTE, Budapest, Hungary
11.00-11.15	<i>Coffee break in Room 333</i>	
11.15-12.15	Cyclodextrins in Electrochemical Sensing: Innovations in Drug and Metabolite Detection	M. Casulli KUL, Leuven, Belgium
12.15-13.30	<i>Lunch</i>	
13.30-14.30	Making Science Accessible: Key Approaches to Research Outreach and Communication	T. Sohajda CarboHyde, Budapest, Hungary
14.30-15.30	Hands-on: tell a story of your research on YouTube	
15.30-15.45	<i>Coffee break in Room 333</i>	
15.45-17.15	Hands-on: Making a video abstract	

26th September – Thursday

	Title of the seminar	Speaker
9.00-11.00	Crafting Success: A Guide to the Writing and Review Process of Horizon Europe MSCA Proposals	I. Manet-B. Ventura CNR, Bologna, Italy
11.00-11.15	<i>Coffee break in Room 333</i>	
11.15-13.00	Hands-on: prepare your MSCA proposal	
13.00	<i>End of the Workshop</i>	

Programme of the International Workshop

“New Approaches to Sustainable Synthetic Chemistry of Carbohydrates and Derivatives”

September 24-26, 2024,

Budapest, Hungary
